

Empowering the community through Ward Panch: Neetu, a elected ward panch from Bagrana, but she does not aware of her rights as Ward Panch. When LEDS activist contacted her regarding the various Id cards issues, she was bit reluctant to get involved. However LEDS activist pursued her to participate in its activities among construction workers in Bagrana. Now she is actively participating in our process. She also participated in our exposure visit to lucknow. And presently she project coordinator.
